

IMPROVE PLANT COMMUNICATION

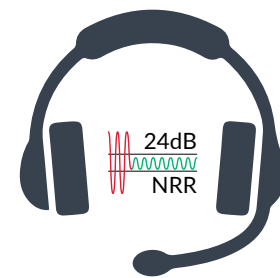

PROTECT HEARING, INCREASE PRODUCTIVITY & REDUCE DOWNTIME

MAINTAIN A COMPETITIVE EDGE WITH HANDS-FREE WIRELESS COMMUNICATION SOLUTIONS THAT ADAPT TO YOUR NEEDS.

PROBLEM NOISE IMPACTS

46% of all workers in manufacturing have been exposed to hazardous noise.¹

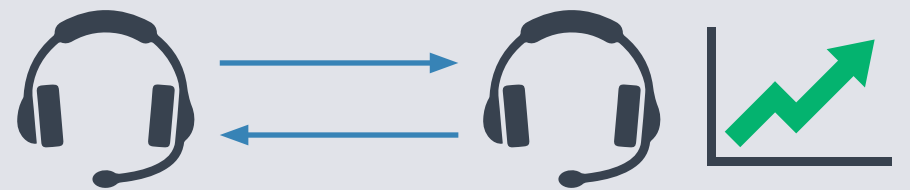

SOLUTION PROTECT HEARING

By combining hearing protection with a communication solution, you will help deter occupational noise-induced hearing loss. Employees won't need to remove their headsets to get alerts or instructions.

PROBLEM REDUCED LABOR

Manufacturing labor productivity decreased in 16 of the 21 NAICS 3-digit manufacturing industries in 2018.²

SOLUTION INCREASE PRODUCTIVITY

Optimize and extend the reach of your existing teams by providing a solution that offers hands-free, simultaneous two-way conversation. Keep each worker and supervisor engaged on the plant floor, avoid confusion, and increase engagement.

PROBLEM DOWNTIME COSTS

Downtime costs every factory at least 5% of its productive capacity, with many losing up to 20%.³

SOLUTION DECREASE DOWNTIME

Communicate in real-time without stopping work or shutting down equipment. Keep production lines working by letting employees ask questions and receive notifications without having to step away from their station.

REDUCE COMMUNICATION FAILURES, INEFFICIENCIES & INCIDENTS

Sonetics wireless headsets help manufacturing companies become more successful by providing unified communications that enhance safety, minimize downtime, and increase overall productivity.
